

STORIES FROM THE RICH PAST OF OUR PARISH

The piano of the parish hall, which is in terrible condition - The Heintzman Upright, No.6555

“In my opinion there should be for no more money spent on this instrument.

The condition of the piano is so poor that any further expense would be a waste.”

- The tuning pins are loose.
- The hammers are worn out.
- Several keys are broken.
- The Bridle Straps are worn out.
- The Bass straps are starting to strip.
- There are many small problems of worn parts and adjustments required..

If only the immediate work is required it would cost in the area of \$1100, but there are still be problems not addressed. I feel that the overall condition of the piano not worth fixing.

Terry Corbett, Piano Technichian. Apr 30th, 1984.

This is the condition of the piano on Jan. 15, 2008!
